PROJECTS

Taqneeq(Team Project)

- Developed a mobile app for college tech fests where participants can scan QR codes to redeem and collect points at various event locations.
- Implemented a gamified experience to encourage engagement and track user progress throughout the fest.
- **Tech Stack**: Flutter, Dart,Firebase,Flask,Fast2SMS
- **GitHub:** https://github.com/taqneeq/QR-Shooter-Flutter
- **Backend GitHub:** https://github.com/taqneeq/qrshooter-backend
- **Download:**https://www.taqneeqfest.com/app

DevAI(Team Project)

- Built a web app to scan GitHub repositories, detect vulnerabilities, generate README files, and create test cases.
- Implemented real-time email notifications on code push using Resend.
- **Tech Stack**: Next.js, Tailwind CSS, Node.js, Express.js, Prisma, PostgreSQL, Redis, Docker, Flask, Python, Google Gemini API, Pusher, GitHub API
- **GitHub:** https://github.com/MananGandhi1810/datathon-round-2

FluxGate(Team Project)

- Developed a self-hostable GitHub deployment platform with seamless integration and automated deployments.
- Implemented real-time logs, build alerts, and natural language deployment.
- Integrated **Gemini 1.5 Flash** to analyze project structure and determine optimal deployment parameters.
- **Tech Stack**: Express.js, Next.js, PostgreSQL, Redis, Docker, Gemini 1.5 Flash, GitHub API, Resend
- **GitHub:** https://github.com/MananGandhi1810/FluxGate

POSITIONS OF RESPONSIBILITY

Taqneeq Fest
Head of Technology
- *Led a team of **12** to develop the **official app (400+ downloads)** and multiple fest websites.*
- *Organized **Cyber Cypher 4.0**, designing problem statements & rubrics for **1100+ participants**.*
- *Developed **Department Classifier**, helping **300+ users** choose their department based on aptitude.*

CERTIFICATIONS

Software Engineering Virtual Experience – JPMorgan Chase (Issued Jul 2023)
Advanced React – Meta (Issued Mar 2023)
